Sole Source Letter

October 2, 2018

To Whom It May Concern:

This letter is to notify you that the I-CAR® Professional Development Program - Education Edition™ (PDP-EE) Curriculum Package and associated props are sold only through I-CAR. I-CAR creates all of the programs and is the sole vendor for the curriculum at this time. Additional information can be found by visiting www.i-car.com.

The PDP-EE enables you to teach a series of live and online courses for the Non-Structural ProLevel 1® and Refinishing ProLevel 1 collision repair technician roles. Your students will graduate with industry-recognized credentials – I-CAR Platinum™ certificates. This program aligns with collision repair businesses' need to hire entry-level technicians who are productive on day one, earning income for the shop and the technician, while helping the shop maintain I-CAR Gold Class Professionals® status.

We are excited about your interest in providing your students with the very best curriculum and hands-on training available today!

Sincerely,

THE I-CAR EDUCATION SEGMENT TEAM
